MODEL: 490082 "Timberline" LED Hardscape Fixture

SPECIFICATIONS

MODEL:

490082 DFB-HS82-IL-WB

HOUSING:

Cast brass with weathered brass finish.

LENS:

Clear and frosted (50%) high-impact polycarbonate lenses. Optional amber lens.

LAMP TYPE:

Embedded warm-white LED array.

LIGHT OUTPUT:

251 lumens. Warm-white 2700 K light.

POWER:

12V, 4W.

MOUNTING:

Three stainless steel mounting plates facilitate mounting under a hardscape cap or flush to a wall, or mount directly with screws.

WIRING:

Prewired with 5' pigtail of 18/2 cable.

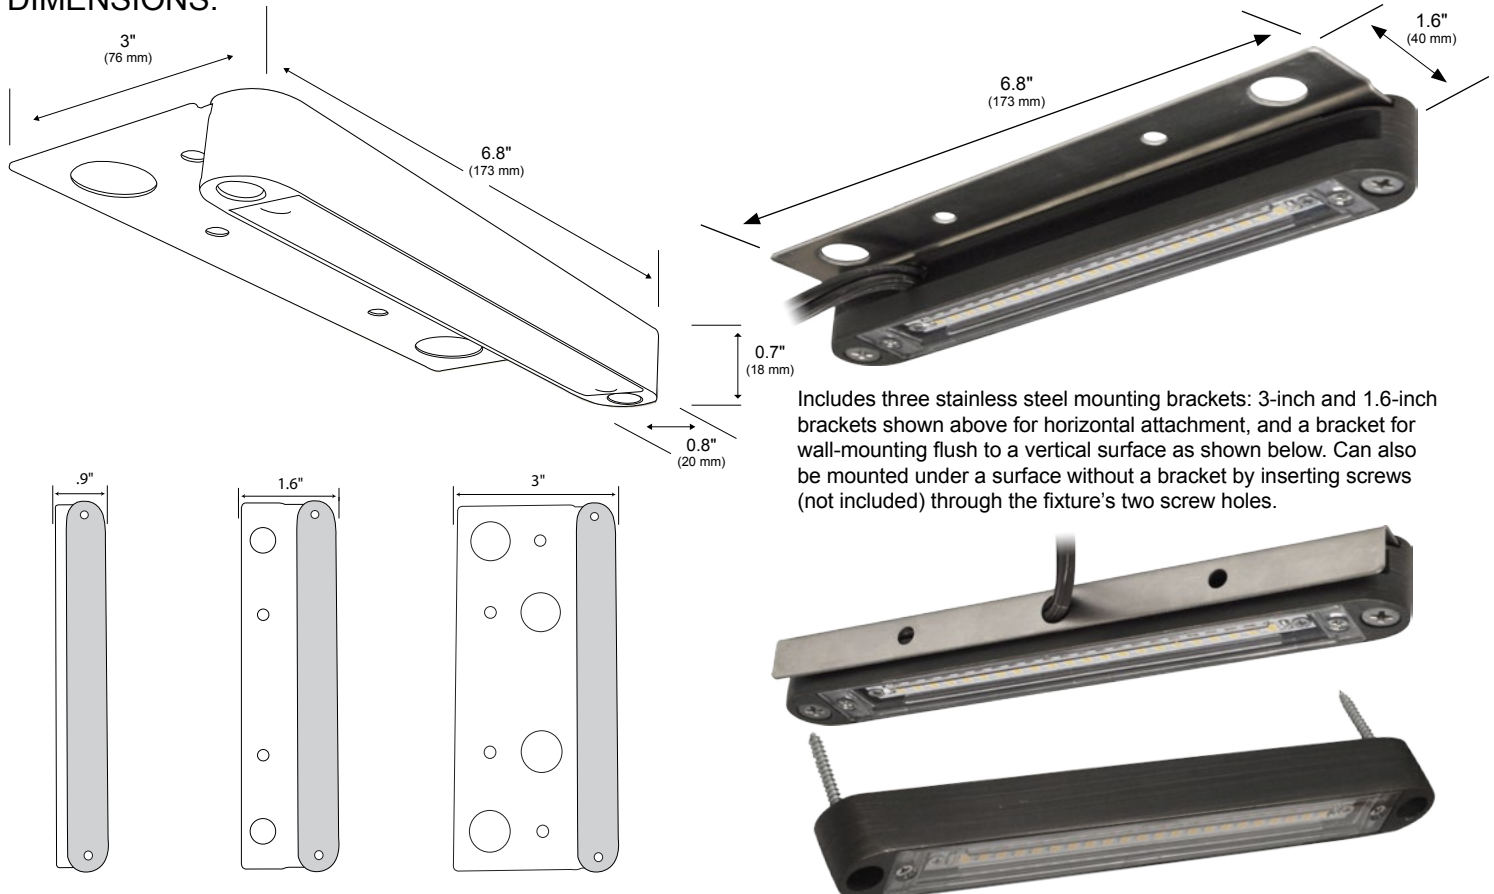

WARRANTY:

Five years.

Crafted from cast brass, the Timberline hardscape light features a highly efficient embedded 4-watt, warm-white LED array (251 lumens). It can be mounted under a horizontal cap or flush to a vertical or horizontal surface. Clear and frosted high-impact lenses included. Five-foot factory-installed 18/2 wire lead.

DIMENSIONS:

Includes three stainless steel mounting brackets: 3-inch and 1.6-inch brackets shown above for horizontal attachment, and a bracket for wall-mounting flush to a vertical surface as shown below. Can also be mounted under a surface without a bracket by inserting screws (not included) through the fixture's two screw holes.
